

Updating procedure for MAX S500HD, MAX S600HD CI

Necessary material:

- USB 2.0 device (FAT 32).
- Last available software version.

To proceed with the upgrading, you must have the file with last available version, which you can download from:

<http://www.ftemaximal.com/ingles/firmware.php>

From this website, you will reach a ZIP compressed file which must be decompressed in the root folder of the USB Memory device.

Once you have the update file in the root folder of your memory, please proceed to connect the memory at front connector of the receiver.

Select Menu / Tools / Software Upgrade / USB-STB Upgrade and press OK.

Select the upgrade mode "Whole"
Select the updating file and press "Start" in order to start the updating.

Attention! Do not power off receiver while updating is running.

When the bar arrives to the 100%, the receiver will reboot automatically.

In this moment the updating is complete.
